

COMMUNICATIONS TO THE BOARD

The board serves the public and is accountable to the electorate for operation of the district. Accordingly it is responsible for evaluating its own effectiveness and that of the administration. Effective communications with the public and staff are critical to its proper functioning.

The superintendent is directed to establish and maintain procedures whereby the board will ensure that its members have knowledge of the communications directed to it, and the public and staff will know that board members have received the communications.

All communications received by the district which are addressed to the board will be distributed electronically to all board members
