

ACCESS TO BUILDINGS

The Rapid City Area School District is committed to providing a school environment that promotes the safety of students, employees, and visitors to schools. An important element of protecting students, staff members, and school property is controlling the access to District buildings.

The Facilities Manager shall assign times for public access to all District buildings and develop building security procedures which are consistent with the goals and objectives of the District's comprehensive safety plan and building level safety plans. Such procedures shall be regularly reviewed to reflect changing circumstances and to assess their effectiveness in achieving safe school objectives.
