

SCHOOL VOLUNTEERS

- I. Recognizing the need for the entire community to share in the education of its children, the Rapid City Area School District will pursue and support volunteerism in its schools. The district will actively encourage community members, particularly parents, to serve as volunteers. Administrators and teachers will facilitate involvement of parents and community volunteers in the schools. Volunteers will not conflict with or replace any regularly authorized personnel allotment. Any volunteer working directly with children must be under the immediate supervision and direction of a certified teacher, qualified staff person, and/or administrator. The Rapid City Area School District reserves the right to do a central screening of all volunteers.
