

BUILDINGS AND GROUNDS MAINTENANCE

The board is aware of the tremendous investment in school facilities. It therefore desires that a continuing program for the maintenance of all district-owned buildings be established.

The superintendent will be charged with the responsibility for the program. In this effort, the superintendent will be assisted by the administrator of buildings and grounds.

Personnel assigned to buildings, particularly principals and custodial staff, have a definite responsibility in reporting matters of maintenance which need attention.

This program of maintenance will be administered in such a manner as to preserve the capital investment of the district by prevention of deterioration due to improper care.

The superintendent will carry out the policy through the budget process and provide the following:

- A. Buildings and grounds improvements and additions.
- B. An adequate custodial program for all schools.
- C. Improvement and maintenance of school grounds and fields.
- D. Repairs, including repair of equipment and painting.
- E. Determination of obsolete equipment.
